Chairman's Message

On behalf of your Board, I have pleasure in reporting on the performance of the Asia Pacific Data Centre Group (APDC, the Group) for the year ended 30 June 2015.

APDC recorded distributable earnings of \$10.6 million, up 6.1% from the previous year. The Group paid total distributions of 9.10 cents per stapled security compared with 9.00 cents for the previous year.

APDC recorded a statutory profit of \$26.2 million which included unrealised asset revaluations of \$15.6 million.

APDC owns three state of the art data centres in Sydney (S1), Melbourne (M1) and Perth (P1) and has one tenant, NEXTDC Limited, under long term leases of the data centres. These leases are on a triple-net basis and so there are no operating or outgoing expenses for the properties payable by the Group.

Each data centre was independently valued as at 30 June 2015 with the consequence that the portfolio increased in value by \$15.6 million. We believe this is a reflection of the real estate market in the respective locations, quality of the data centres and the long term nature of the leases. Net Tangible Assets per security at 30 June 2015 was \$1.24 (up from \$1.11 at 30 June 2014).

During the year:

- The value of the portfolio increased to \$166.3 million at 30 June 2015 (up 10% from 30 June 2014).
- Gearing reduced to 14.8% at 30 June 2015 (from 16.1% at 30 June 2014) due to the increase in the value of the data centres.
- The Group successfully negotiated an improved margin on its five year facility with Bankwest (a division of Commonwealth Bank of Australia), resulting in a reduction of 65 basis points on its Core Debt facility.
- Management expenses were maintained at prior year levels.

I again pay tribute to our Chief Executive Officer, Francina Turner, for her management skills and expertise in meeting the many challenges during the year. I also wish to acknowledge the contribution of Greg Baynton, a director since inception, who resigned on 4 February.

On behalf of my fellow Directors, I thank you for your support of APDC this year and I look forward to your continuing investment in APDC. We look forward to meeting with those of you who are able to attend our upcoming Annual Meetings in Brisbane.

Yours sincerely

Ian Fraser

Chairman

Corporate Governance Statement

Introduction

The ADPC Group (APDC or Group) comprises Asia Pacific Data Centre Holdings Limited (APDC Holdings) and Asia Pacific Data Centre Limited (APDC Limited) as responsible entity for Asia Pacific Data Centre Trust (APDC Trust). APDC Limited holds Australian Financial Services Licence (AFSL) No. 426 503.

The shares of APDC Holdings and the units of APDC Trust are stapled and listed on the Australian Securities Exchange (ASX). The ASX Corporate Governance Council's 'Corporate Governance Principles and Recommendations' (Principles) provide a framework for good corporate governance. The recommendations are not prescriptive. However listed entities are required to disclose the extent of their compliance and, if any Principles have not been followed, must give reasons for not following them.

APDC is committed to meeting securityholders' expectations of sound corporate governance, while delivering sustainable value to securityholders and investors. APDC recognises the importance of good governance in achieving corporate objectives in a cost effective manner, in discharging its responsibilities to all stakeholders and in addressing the broader role of being a good corporate citizen.

APDC's governance framework is designed to ensure that the Group is effectively managed, statutory obligations are met, and APDC's culture of corporate integrity is reinforced. The corporate governance policies are identical for ADPC Holdings and APDC Limited.

APDC has provided details of the corporate governance practices, systems and processes in place within APDC, which were followed throughout the year in this annual report and are current as at 31 August 2015. APDC's key corporate governance policies and this corporate governance statement which has been approved by the Board can also be found on its website www.asiapacificcdc.com. In accordance with ASX Listing Rule 4.10.3 further corporate governance statements and information will be available only on the website and not published in annual reports. The corporate governance practices of APDC reflect the following circumstances:

- APDC currently owns three investment properties, all of which are leased to the same tenant, NEXTDC Limited; and
- APDC has two employees

Principle 1 - Lay solid foundations for management and oversight

The boards of APDC Holdings and APDC Limited have the same members, and have identical corporate governance policies. The term Board hereafter should be read as a reference to either or both of these Boards.

Roles and responsibilities of the Board and management

The Board is accountable to investors for APDC's performance and is responsible for the overall management and governance of APDC. The Board's guiding principle in meeting this responsibility is to act honestly, in good faith and in the best interests of APDC as a whole and of its securityholders in accordance with the law and APDC's Code of Conduct.

APDC has adopted a Board Charter which notes that the Board retains responsibility for the overall operation and stewardship of APDC.

In accordance with the Charter, the Board is responsible for:

- approving the strategic objectives of APDC and establishing goals designed to promote the achievement of those strategic objectives;
- approving and monitoring systems of risk management and internal compliance and control, codes of conduct, legal compliance and ethical standards;
- approving investments and ongoing evaluation of those investments;
- approving and monitoring financial and other reporting;
- remuneration and nomination functions;
- monitoring senior management's performance (against the goals and objectives established by the Board); and
- approving any public statements which reflect significant issues of APDC's policy or strategy.

The Board Charter also permits the establishment of Board committees in the interests of good governance and adopting charters relating to the responsibilities of such Board committees.

Asia Pacific Data Centre Group Corporate Governance Statement

Authority to act on behalf of the Board may be delegated to management. The Chief Executive Officer acts under a delegated authority on matters including relating to day to day management of the affairs of APDC and the implementation of strategy.

Appointment of Directors

APDC undertakes appropriate checks before appointing a Director and provides material information to securityholders in its possession relevant to a decision whether or not to elect or re-elect a Director.

Each Director is provided with a formal appointment letter setting out the key terms and conditions of their appointment.

The CEO (currently the only executive) appointment is by way of an employment agreement which, includes expectations of her role, term of appointment, termination entitlements and rights and responsibilities.

Company Secretary

The Company Secretary reports directly to the Board through the Chairman.

Diversity

The Board has adopted a Diversity Policy which acknowledges that commitment to diversity creates competitive advantage and enhances employee participation and contemplates strategies, initiatives and programs to assist in realisation of such advantages.

Given that APDC has two management staff measurable objectives including gender diversity targets have not been set.

The gender composition of APDC as at 30 June 2015 is summarised as follows:

Category	Female	Male	Female %
Board	1	3	25%
Senior Executives (CEO only)	1	0	100%
Employees	2	0	100%

Evaluation of the Board

In accordance with the Board Charter, the Board undertakes an annual performance evaluation of itself that compares the Board, Committee and individual director performance with the requirements of the Charters and sets forth the goals and objectives of the Board for the upcoming year.

The evaluation process is an internal assessment based on a survey of Directors. The Chairman coordinates the results and

discusses these and any potential improvements with the Board. An evaluation was conducted in July 2015.

Evaluation of senior executives

A combination of financial and non-financial key performance indicators (KPI's) is used to monitor the performance of the Chief Executive Officer (CEO). The performance of the CEO is assessed at least annually by the Chairman who then makes recommendations to the Board. The next evaluation of the CEO's performance will be conducted by December 2015 in line with the process described. The previous evaluation took place in December 2014.

Principle 2 - Structure the board to add value

Nomination committee

The Board performs the nomination function because of the size of the Group and has adopted policies relating to nomination as part of its Board Charter. Currently three out of four Directors are independent Directors.

Responsibilities under this Charter include:

- identifying Directors' and senior management competencies;
- considering succession planning;
- identifying qualified and appropriate potential Board members having regard to prescribed criteria; and
- developing selection policies and procedures.

Directors' skills and experience

Collectively, the Board has an extensive range of commercial skills and other relevant experience which are vital for the effective management of the Group. The Board has developed and assessed a skills matrix and notes that the Directors collectively have experience in the following areas:

- Funds management of listed and unlisted entities, direct and indirect asset classes
- Real estate transactions, valuations and asset management
- Capital markets and corporate advisory services
- Accounting and audit
- Corporate strategy
- Governance, compliance and regulation
- Risk management and insurance

Asia Pacific Data Centre Group Corporate Governance Statement

The Board has assessed that at this stage the Board's skills and experience as a group meet the Company's needs and there are no identifiable gaps in skills and experience.

Directors' independence

The required composition of the Board is set out in the Board Charter. The Board of Directors will comprise no less than three and no more than ten Directors at any one point in time.

APDC and the Board recognise that independent directors are important in assuring investors that the Board is properly fulfilling its role and is diligent in holding management accountable for its performance. Accordingly, the Board will endeavour to have at least 50% independent Directors and an independent Chairman.

An independent director is a non-executive director who is not a member of management and who is free of any business or other relationship that could interfere, or might be seen to interfere, with a director's capacity to bring an independent judgement to bear on issues before the Board and to act in the best interests of APDC securityholders generally. In its assessment of independence, the Board will take account of the factors set out in relation to Recommendation 2.3 of the *ASX Corporate Governance Principles & Recommendations (3rd Edition)* and any other factors it considers relevant. None of the independent Directors have a relationship of the type described in Recommendation 2.3 (Box 2.3).

During the year ended 30 June 2015, the Board consisted of five Directors, four independent and one non-independent. Currently, the Board consists of four Directors, comprising an independent non-executive Chairman (Ian Fraser), two other independent non-executive Directors (John Wright and Chris Breach), and one executive Director (Francina Turner).

Profiles of each Director, including details of their skills, expertise, qualifications and experience can be found in the Directors' Report. Directors' interests in securities are detailed in the Remuneration Report contained in the Directors' Report. All of the current Directors were first appointed on 3 December 2012 and have served for 2.7 years.

Independent advice

In fulfilling their duties, and to ensure independent decision-making, each Director may take independent professional advice where necessary at the expense of APDC. Before obtaining independent professional advice, a Director must inform the Chairman that they wish to obtain the advice and provide an estimate of the cost of the advice. The budget for the advice must then be approved by the Chairman (such approval not being unreasonably withheld) before the cost is incurred.

Appointment, induction, retirement and re-election

Any appointment of new Directors will be managed by the Board in accordance with its nomination responsibilities. In accordance with APDC's Constitution, the Directors may appoint a person to be a Director, either in addition to the existing Directors, or to fill a casual vacancy, provided there are not less than three and not more than ten Directors at any one time. A person may also be elected to the office of Director if that person has been nominated for election, or if a member has expressed his or her desire to be a candidate for election.

Any new Directors appointed will be provided with an induction, including key documents and discussions with key persons to ensure that they fully understand their responsibilities and APDC's strategy, operations and financial position. Appropriate professional development opportunities are provided to Directors on an ongoing basis to maintain and develop their skills and knowledge.

At each Annual General meeting (AGM), any such Director appointed must retire from office at the next AGM following his or her appointment. In addition to this, one third of the remaining Directors and any other Director who will have been in office for three or more years and for three or more AGMs since they were last elected must retire from office. The Directors required to retire at the AGM are the Directors who have been longest in office since their last election. Any Director retiring from office is eligible for re-election.

Board meetings

The Board holds regular, scheduled meetings and additional meetings are convened as required. Board papers are designed to focus Board attention on key issues and standing items include major strategic initiatives, corporate governance, compliance, tenant and development updates and financial performance.

Asia Pacific Data Centre Group Corporate Governance Statement

The number of Board meetings held and Directors' attendance at those meetings are included in the Directors' Report.

Principle 3 – Act ethically and responsibly

Code of Conduct

The Board has adopted a Code of Conduct for Directors and senior executives setting out the ethical standards expected of those individuals. The Board has also adopted a Code of Conduct for APDC's employees.

The purpose of these Codes is to guide Directors, senior executives and employees in their performance of their duties, including:

- acting honestly and with integrity;
- dealing with conflicts of interest;
- disclosing any conflicts of interests; and
- managing confidential information.

Each Director, senior executive and employee is required to comply with the Code, and report to the appropriate authority within the Group any matters which are believed to constitute fraud, corruption, misconduct or other unethical conduct.

Whistle blowing

APDC is committed to promoting a culture of corporate compliance and ethical behaviour. The best way to fulfil this commitment is to create an environment in which employees who have genuine suspicions about improper conduct feel safe to report it without fear of reprisal.

The Whistle Blowing Policy provides employees with an internal reporting system where there is genuine suspicion of improper conduct. Any report made in good faith will be listened to, investigated and treated in confidence. APDC will take all reasonable steps to protect people who report concerns from any detrimental action in reprisal for making the disclosure. APDC will also afford natural justice to the person who is the subject of the disclosure.

This Policy is very important to APDC, as it helps APDC identify and rectify problems and reflects the Group's commitment to ensure its compliance with legal and ethical obligations.

Securities trading

The objective of the Securities Trading Policy is to ensure that Directors and employees adhere to high ethical and legal standards in relation to their personal investment in the APDC Group's securities. The Policy also ensures that

personal investments of Directors and employees do not conflict with the interests of the APDC Group and other securityholders in relation to the APDC Group's securities.

The policy is not designed to prohibit Directors and employees from investing in APDC's securities but does recognise that there may be times when Directors or employees cannot or should not invest in the APDC Group's securities. The policy provides guidance to Directors and employees as to the times that Directors and employees may invest in the APDC Group's securities.

Principle 4 - Safeguard integrity in financial reporting

Audit, Risk and Compliance Committee

The Board has established an audit committee that operates under the Audit, Risk and Compliance Committee (Committee) Charter.

The members of the Committee shall be members of, and appointed by, the Board. In accordance with the Charter, the Committee shall consist of:

- at least three members;
- only non-executive Directors;
- a majority of independent Directors; and
- an independent chairman, who shall be nominated by the Board from time to time but who shall not be the chairman of the Board.

Current members are John Wright (Chairman), Ian Fraser and Chris Breach, each an independent Director. All the members of the ARCC are financially literate. The Committee is chaired by an independent Director who is not the Chairman of the Board.

The Committee meets quarterly. Minutes are kept of all Committee meetings and presented at the next Board meeting. The Committee reports to the Board on all matters relevant to its role and responsibilities.

Details of Committee meetings held and attendance at those meetings are detailed in the Directors' Report.

The Committee undertakes an annual performance evaluation of itself that compares Committee performance with the requirements of the Charter and sets forth the goals and objectives of the Committee for the upcoming year. The evaluation process is an internal assessment based on a survey of Directors. The Committee chairman coordinates the

Asia Pacific Data Centre Group Corporate Governance Statement

results and discusses these and any potential improvements with the Committee.

Chief Executive Officer's declaration

The Board receives a declaration signed by the Chief Executive Officer required by section 295A of the Corporations Act and Recommendation 4.2 confirming that in their opinion, the financial records of APDC have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of APDC, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively. A declaration was made for each reporting period this financial year.

External auditors

The Audit, Risk and Compliance Committee is responsible for making recommendations to the Board in regard to the appointment, re-appointment, replacement, remuneration and monitoring of the effectiveness and independence of the external auditors.

In line with requirements of the Corporations Act and professional standards, APDC requires the audit partners and review partners of its external auditor to rotate every 5 years. The External Auditor must manage its audit team members to ensure adequate rotation of staff.

The members of the Audit, Risk and Compliance Committee meet with the external auditor when required without the CEO present.

The Board asks the external auditor to attend the Annual Meeting each year to answer questions about the conduct of the audit and the preparation and content of the Audit Report.

Principle 5 - Make timely and balanced disclosure

The Board has adopted a Continuous Disclosure Policy which is designed to ensure that APDC complies with its ASX Listing Rule requirements, provide securityholders and the market with timely, direct and equal access to information issued by APDC and promote investor confidence in the integrity of APDC and its securities.

The Company Secretary is responsible for determining what information is to be disclosed. Where there is doubt as to whether certain information should be disclosed, the Company Secretary will discuss the issue with the Directors, and if necessary, seek external advice.

Principle 6 - Respect the rights of securityholders

Investor communications

The Board has adopted a Securityholder Communications Policy which is designed to ensure that APDC securityholders are kept informed of all major developments affecting the state of affairs of APDC and are able to obtain information about APDC through direct communications or on the APDC website. www.asiapacificdc.com. Securityholders can receive or send communications electronically or in hard copy.

APDC prepares annual reports for investors for each financial year ending 30 June. These reports are posted to APDC's website following their release to the ASX.

Securityholders can directly raise matters of concern by contacting APDC or its security register provider, Link Market Services.

Annual meetings

APDC holds an Annual Meeting (AM) in November each year. APDC encourages securityholder participation in the AM. Notices and proxy forms are sent to securityholders in advance of the meeting. A copy of the notice is posted to APDC's website.

Principle 7 - Recognise and manage risk

Audit, Risk and Compliance Committee

The Board has adopted policies relating to risk management as part of the Audit, Risk and Compliance Committee (Committee) Charter. The Committee is responsible for reviewing risk management policies developed and implemented by management, gaining an understanding of the current areas of greatest compliance risk, receiving updates from management, legal counsel, auditors and others regarding risk management and compliance matters and reviewing any significant legal matters.

The composition and operation of the Committee is summarised in Principle 4 of this Corporate Governance Statement.

Risk management

APDC has a risk management framework which is detailed in the Risk Management Policy. The Board reviews the risk management framework at least annually and has reviewed the framework this reporting period. It has received a report from management as to the effectiveness of the APDC's management of material business risks.

Asia Pacific Data Centre Group Corporate Governance Statement

The Board is responsible for approving and monitoring systems of risk management and internal compliance and control, codes of conduct, legal compliance and ethical standards and for internal and external financial and other reporting, including reporting to securityholders, the ASX and other stakeholders.

The day to day operation of risk management systems and internal and external controls is delegated by the Board to the Chief Executive Officer, with oversight by the Audit, Risk and Compliance Committee. APDC does not have an internal audit function due to the size, nature and scale of its operations. As the APDC continues to develop, the Audit, Risk and Compliance Committee will consider establishing an independent internal audit function.

Economic, environmental and social sustainability risks

The Board has assessed and determined that there are no material environmental or social sustainability risks affecting APDC. APDC owns one class of real estate asset, data centres. APDC leases its data centres to one tenant, NEXTDC Limited. Further information regarding this economic risk can be found in Note 15 of the Financial Statements.

Principle 8 - Remunerate fairly and responsibly

Remuneration function

The Board performs the remuneration function because of the size of the Group and has adopted policies relating to remuneration in its Board Charter.

Responsibilities under this Charter include:

- regularly reviewing and making recommendations as to the structure of remuneration packages of senior executives, non-executive Directors and executive Directors;
- equity-based incentive plans; and
- other employee benefit programs.

The composition and operation of the Board is summarised in Principle 1 of this Corporate Governance Statement.

Remuneration of Directors

The APDC Holdings Constitution provides that the non-executive Directors of the company are entitled to remuneration not exceeding an aggregate maximum sum of \$400,000 per annum or such other maximum amount determined by APDC Holdings in general meeting. The aggregate sum is divided among the non-executive Directors of APDC Holdings in such a manner and proportion as agreed by the APDC Holdings Directors and, in default of agreement, equally.

Non-executive Directors will not be remunerated by way of commission or participate in profits and will not be provided with any retirement benefits other than statutory superannuation.

The APDC Holdings Constitution provides that the remuneration of an executive Director and the form of that remuneration will be determined by the Directors. The executive Director of APDC Holdings (Francina Turner) is remunerated as an employee of the company and does not receive Directors' fees from the company.

Except in circumstances prohibited by the Corporations Act, APDC Holdings may pay a premium for a contract insuring an APDC Holdings Director against liability incurred by the person as a Director.

APDC Holdings Directors may also be paid out of pocket expenses properly incurred by them in connection with the company's business.

Currently, APDC does not have any equity-based remuneration scheme in place and as such has not developed a policy regarding executive's ability to enter into transactions in associated products which limit the economic risk of participating in unvested entitlements under any equity-based remuneration scheme.

Refer to the Remuneration Report contained in the Directors' Report for further information.

Directors' Report

The directors of Asia Pacific Data Centre Holdings Limited (APDC Holdings) and the directors of Asia Pacific Data Centre Limited (APDC Limited) as responsible entity for Asia Pacific Data Centre Trust (APDC Trust) (collectively 'the Directors') present their report for APDC Holdings and APDC Trust together with the consolidated financial report of APDC Holdings and its controlled entities (Group, APDC Group) and the financial report of APDC Trust for the year ended 30 June 2015.

APDC Holdings and APDC Limited are both companies limited by shares, incorporated and domiciled in Australia. The registered office for both companies is Level 16, 55 Hunter Street, Sydney NSW 2000 and principal place of business for both companies is Level 13, 135 King Street, Sydney NSW 2000.

The shares of APDC Holdings and units of APDC Trust are stapled and can only be traded as stapled securities. Although there is no ownership interest between APDC Holdings and APDC Trust, APDC Holdings is deemed to be the parent entity of the Group under Australian Accounting Standards.

1. Directors

The following persons have held office as Directors during the year:

Ian Fraser	Chairman, Non-Executive Director
Chris Breach	Non-Executive Director
Francina Turner	CEO, Executive Director
John Wright	Non-Executive Director
Greg Baynton	Non-Executive Director

Mr Baynton resigned from the Board on 4 February 2015.

2. Principal activities

The Group's principal activity is to invest in data centre investment property in Australia.

APDC Trust owns the following data centre investment properties:

M1	Port Melbourne, Melbourne, VIC
S1	Macquarie Park, Sydney, NSW
P1	Malaga, Perth, WA

There were no significant changes in the nature of the activities of the Group during the year.

2.1 Objectives

The Group's objective is to provide investors with stable income sourced from rental income earned from its data centres and the potential for capital growth.

In order to achieve this objective, the Group owns a geographically diverse portfolio of data centres in three Australian capital cities. The Group's data centre investment properties comprise the land and buildings. This includes essential building service improvements but excludes the tenant's fit out such as the plant and equipment and specialised data hall or data centre technical improvements. The land and buildings in the current portfolio are leased on long-term triple-net terms pursuant to which all maintenance, taxes, insurance and outgoings are paid by the tenant, NEXTDC Limited (NEXTDC). The leases provide for upwards only annual CPI rental increases and market reviews every 5 years, not exceeding 110% of the preceding year's rent.

3. Operating and financial review

3.1 Results of operations

The Group earned a profit for the year of \$26,159,000, representing earnings per stapled security of 22.75 cents.

The Group's distributable earnings for the year was \$10,559,000, representing earnings per stapled security of 9.18 cents.

APDC Group reports statutory profit for the year in accordance with Australian Accounting Standards. Distributable earnings is the primary basis upon which distributions are determined by the Directors. Distributable earnings are a non-AASB measure that represents the Directors' view of the amount available for distribution to securityholders from ongoing activities for the year, as presented in the reconciliation between statutory profit for the year and distributable earnings below:

	APDC Group 2015 \$'000	APDC Group 2014 \$'000	APDC Trust 2015 \$'000	APDC Trust 2014 \$'000

Distributions paid and payable	-	-	10,465	10,350
Distributions per security (cents)	-	-	9.10	9.00

⁽¹⁾ Unrealised fair value gains and losses on revaluation of investment properties. Refer to Notes 3(h) and 13.

Profit has been calculated in accordance with Australian Accounting Standards.

The total distribution for the year is 9.10 cents per stapled security. Interim distributions totalling 6.80 cents per stapled security were paid on 31 October 2014, 27 February 2015 and 30 April 2015. A final distribution for the year of 2.30 cents per stapled security will be paid on 27 August 2015.

Distributions to securityholders were 24.75% tax deferred.

Distributions paid and payable represent an annualised 7.2% yield on the stapled security price of \$1.26 at market close on 25 August 2015.

⁽¹⁾The Bankwest Debt Facility is secured by a mortgage over S1 Sydney data centre asset. Refer Note 14.

The fair value of the assets is derived using the basis set out in Note 3(h) to the financial statements. The fair value of the investment properties is determined by the Directors by reference to the most recent independent valuation for that property updated to take into account any changes in valuation factors.

Asia Pacific Data Centre Group

Annual Financial Reports

for the year ended 30 June 2015

All of the Group's data centres are wholly-owned by APDC Trust. The data centres are leased to NEXTDC on a triple net basis for initial terms of 15 years expiring 2027 and 2028, with options for up to another 25 years.

Pursuant to the leases, a CPI increase of 2.3% was applied to the M1, S1 and P1 rentals effective 21 December 2014.

3.3 Bankwest Debt Facility

APDC Trust has a five year facility with Bankwest (a division of Commonwealth Bank of Australia) (Bankwest) to provide the Group with up to \$29 million of asset-secured debt funding (Debt Facility). The Debt Facility is provided at market interest rates for a five year term, and is secured by a mortgage over the S1 Sydney data centre asset.

At 30 June 2015, \$25 million of the facility was drawn (Core Debt).

APDC Trust has a swap agreement to fix the floating interest rate component over \$12.5 million of the drawn amount for five years. The effective cost of the Core Debt (loan interest, margin and swap interest) is 5.43% per annum as at 30 June 2015.

Subsequent to year end, APDC Trust has renegotiated the interest rate margin on the Core Debt facility resulting in a reduction in margin from 2.15% per annum to 1.50% per annum. The effective cost of the Core Debt is 4.56% per annum as at 25 August 2015.

3.4 Real estate funds management

APDC Limited, a wholly owned subsidiary of APDC Holdings, provides responsible entity services to APDC Trust. During the year, APDC Limited charged APDC Trust a management fee equal to the cost to APDC Limited to provide these services. Refer to Note 7 to the financial statements.

3.5 Events subsequent to reporting date

Since the end of the year, the Directors of APDC Holdings and APDC Limited are not aware of any matter or circumstance not otherwise dealt with in the financial reports or the Directors' Report that has significantly affected or may significantly affect the operations of the Group or APDC Trust, the results of those operations or the state of affairs of the Group or APDC Trust in financial years subsequent to the year ended 30 June 2015.

3.6 Likely developments

The Group has an alliance with NEXTDC that expires on 21 December 2015. Refer further to Note 21 to the financial statements.

4. Information on Directors

The Board of APDC Holdings and the Board of APDC Limited have the same members and identical Board Charters. The term Board hereafter should be read as a reference to both of these Boards.

6. Remuneration Report – audited

6.1 Remuneration objectives and approach

The Remuneration Report of APDC Group reflects the following circumstances:

- APDC Trust currently owns three investment properties, all of which are leased to the same tenant, NEXTDC; and
- APDC Group has two employees.

The objective of APDC Group’s executive remuneration framework is to attract and retain high quality executives by ensuring that executive remuneration:

- is competitive with prevailing employment market conditions; and
- is aligned to APDC Group’s strategic goals and objectives and the creation of value for securityholders.

For the year ended 30 June 2015, the remuneration framework provided for fixed pay and performance based pay. Performance based pay is designed to ensure there is an appropriate relationship between remuneration, contribution and APDC Group’s performance, including its earnings and securityholder wealth.

The Board has adopted policies relating to remuneration as part of its Board Charter.

6.2 Executive remuneration

(a) Fixed annual remuneration (FAR)

What is FAR?	FAR is the guaranteed salary of the executive and includes superannuation and any salary sacrificed components such as motor vehicles, computers and superannuation.
How is FAR set?	FAR is set by reference to external market data for comparable roles and responsibilities for an executive manager for a four day week of similar listed entities within Australia.
When is FAR reviewed?	FAR is reviewed each year with any changes being effective from 1 January.

(b) Summary of key contract terms

Executive	Position	Contract Length	Fixed Annual Remuneration	Notice by APDC	Notice by executive
Francina Turner	CEO, Executive Director and Company Secretary	3 years	\$230,000*	3 months	3 months

* For the period 1 January 2015 to 31 December 2015, inclusive of superannuation entitlements.

(c) Remuneration details for year ended 30 June 2015

Details of the remuneration of the Key Management Personnel for the year ended 30 June 2015 are set out in the following table:

Executive	Short term		Total	Post employment benefits	Other long term benefits	Equity based payments	Total
	Salary	Performance incentive		Superannuation benefits			
	\$	\$	\$	\$	\$	\$	\$
Francina Turner							
Year ended 30 June 2015	203,596	45,662	249,258	23,680	-	-	272,938
Year ended 30 June 2014	190,141	50,000	240,141	17,588	-	-	257,729

The value of fixed remuneration as a proportion of total remuneration was 82% (30 June 2014: 81%). The value of performance based remuneration as a proportion of total remuneration was 18% (30 June 2014: 19%).

6. Remuneration Report – audited (cont.)

6.2 Executive remuneration (cont.)

(c) Remuneration details for year ended 30 June 2015 (cont.)

Short term incentives are based on performance relative to individual key performance indicators (KPIs). Both financial measures such as distributable income, and non-financial measures such as operational and strategic responsibilities are considered. For the year ended 31 December 2014 the Board assessed the performance of the CEO against the CEO's KPIs and noted these had been met and that APDC Group had achieved solid overall performance for securityholders. Consequently Directors resolved to recognise the CEO's performance in the period and paid her a performance incentive of \$50,000, inclusive of superannuation entitlements.

APDC Group does not have a long term incentive plan or equity based plan.

6.3 APDC Group performance for the years ended 30 June 2015 and 30 June 2014

The table below sets out summary information about APDC Group's earnings and movements in securityholder wealth since APDC Group's establishment:

		2015 Actual	2014 Actual	2013 ⁽¹⁾ Actual
Distributable earnings	\$'000	10,559	9,953	3,314
Distribution paid or payable	cents per security	9.10	9.00	3.18

(1) For the period from 24 July 2012 to 30 June 2013.

(2) Security price is the closing price for AJD securities on the last trading day of the period.

(3) Annualised return for the year to 30 June 2015.

(4) Annualised return for the year to 30 June 2014.

(5) Nominal return for the period from 9 January 2013 to 30 June 2013.

The total securityholder return for the year ended 30 June 2015 is 28.1%. This compares to the S&P 300 ASX-AREIT index accumulated return of 20.2% and S&P/ASX 200 index accumulated return of 5.7% for the same period.

6.4 Non-executive director remuneration

The remuneration of non-executive directors (NEDs) is determined by the Board within the aggregate amount of \$400,000.

NEDs receive a cash fee for service and they have no entitlement to any performance based remuneration, nor can they participate in any security incentive scheme. NEDs do not receive any equity based payments, retirement benefits or other incentive payments.

NED fees for the year ended 30 June 2015, inclusive of superannuation entitlements, are as follows:

Non-executive director	Board		Audit, Risk and Compliance Committee	
	2015 \$	2014 \$	2015 \$	2014 \$

6. Remuneration Report – audited (cont.)

6.4 Non-executive director remuneration (cont.)

The Board reviews its fees to ensure that NEDs are remunerated fairly for their services, recognising the level of skill, expertise and experience required to conduct the role. The Board ensures it is remunerating directors at a level that enables APDC Group to attract and retain appropriate NEDs. The Board may obtain the advice of independent remuneration consultants to ensure that NED fees and payments are appropriate and in line with the market.

NEDs remuneration was reviewed at year end to better reflect market rates. Base remuneration for each NED set in 2012 will increase from \$50,000 p.a. to \$60,000 p.a. from 1 July 2015, with the Chairman continuing to receive an extra \$15,000 p.a.

7. Auditor's independence declaration

The auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out on page 30.

8. Indemnification and insurance of officers and auditors

APDC Holdings provides a Deed of Indemnity and Access (Deed) in favour of each of the directors and officers of APDC Holdings and its subsidiary companies. The Deed indemnifies these persons on a full indemnity basis to the extent permitted by law for losses, liabilities, costs and charges incurred as a director or officer of APDC Holdings, its subsidiaries or such other entities.

The auditor is not indemnified out of the assets of the Group.

During the year, APDC Holdings has paid insurance premiums to insure the directors and officers of APDC Holdings and its subsidiary companies. The liabilities insured are legal costs that may be incurred in defending civil or criminal proceedings that may be brought against the officers in their capacity as directors or officers of APDC Holdings and its subsidiary companies, and any other payment arising from liabilities incurred by directors or officers in connection with such proceedings. This does not include such liabilities that arise from conduct involving wilful breach of duty by the directors or officers or the improper use by the directors or officers of their position or of information to gain advantage for themselves or someone else or to cause detriment to APDC Holdings and its subsidiary companies.

The terms of the policy prohibit disclosure of details of the amount of the insurance cover and the premium paid.

9. Environmental regulation

The operations of the Group and APDC Trust are not subject to any particular and significant environmental regulation under a law of the Commonwealth, State or Territory. There have been no known breaches of any environmental regulations applicable to the Group or APDC Trust.

10. Non-audit services

During the year KPMG, the auditor of the Group and APDC Trust, has performed certain other services in addition to the audit and review of the financial statements.

The Board has considered the non-audit services provided during the year by the auditor and in accordance with a recommendation from the Audit, Risk and Compliance Committee, is satisfied that the provision of those non-audit services during the year by the auditor is compatible with and did not compromise the auditor independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Board and have been reviewed by the Audit, Risk and Compliance Committee to ensure they do not impact the impartiality and objectivity of the auditor.
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants.

During the year, the following fees were paid or payable for non-audit services provided by the auditor of the Group and APDC Trust, its related practices and non-related audit firms:

	APDC Group 2015 \$	APDC Group 2014 \$	APDC Trust 2015 \$	APDC Trust 2014 \$
Tax compliance services	19,525	34,890	16,325	30,538
Total remuneration of KPMG Australia non-audit services	19,525	34,890	16,325	30,538

11. Rounding of amounts to the nearest thousand dollars

The Group and APDC Trust are of a kind referred to in Class Order 98/100 (as amended) issued by the Australian Securities & Investments Commission relating to the "rounding off" of amounts in the directors' report and financial report. Amounts in the Directors' Report and financial reports have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise stated.

This report is made in accordance with resolutions of the Directors of Asia Pacific Data Centre Holdings Limited and Asia Pacific Data Centre Limited as responsible entity for Asia Pacific Data Centre Trust.

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To: the directors of Asia Pacific Data Centre Holdings Limited and the directors of Asia Pacific Data Centre Limited the Responsible Entity of Asia Pacific Data Centre Trust

I declare that, to the best of my knowledge and belief, in relation to the audits of Asia Pacific Data Centre Holdings Limited and Asia Pacific Data Centre Trust for the financial year ended 30 June 2015 there have been:

- no contraventions of the auditor independence requirements as set out in the Corporations Act 2001 in relation to the audits; and
- no contraventions of any applicable code of professional conduct in relation to the audits.

Notes to the consolidated financial statements

1. Reporting entities

Asia Pacific Data Centre Group (APDC Group) comprises Asia Pacific Data Centre Holdings Limited (APDC Holdings) and its wholly owned subsidiary Asia Pacific Data Centre Limited (APDC Limited), and Asia Pacific Data Centre Trust (APDC Trust).

The shares of APDC Holdings are stapled to units in APDC Trust. The stapled securities cannot be traded or dealt with separately. The Constitutions of APDC Holdings and APDC Trust ensure that, for so long as the two entities remain jointly quoted, the number of shares of APDC Holdings and the number of units in APDC Trust are equal and shareholders and unitholders are identical.

APDC Holdings was registered as a company on 24 July 2012, APDC Limited registered as a company on 25 July 2012, and APDC Trust was established on 1 November 2012. All of the entities are domiciled in Australia. APDC Group was established on 3 December 2012 and was quoted on the Australian Securities Exchange (ASX Code: AJD) from 9 January 2013.

The reporting entities are APDC Holdings and its controlled entities (APDC Limited and APDC Trust) and APDC Trust (collectively 'Group entities').

The consolidated financial statements of APDC Holdings incorporate the assets and liabilities of APDC Holdings and its controlled entities APDC Limited and APDC Trust (Group, APDC Group).

As permitted by Class Order CO 05/642, issued by the Australian Securities & Investments Commission, this report presents the consolidated financial statements of the Group and the financial statements of APDC Trust, and their accompanying notes.

The Group entities are for-profit for the purpose of preparing the financial statements.

2. Basis of preparation

(a) Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board.

The financial statements were authorised for issue by the Board of Directors on the date the Directors' Report is signed. The Directors have the power to amend and reissue the financial statements.

The Group and APDC Trust are of a kind referred to in Class Order 98/100 (as amended) issued by the Australian Securities & Investments Commission relating to the "rounding off" of amounts in the directors' report and financial report. Amounts in the Directors' Report and financial reports have been rounded to the nearest thousand dollars in accordance with that Class Order, unless otherwise stated.

(b) Basis of measurement

The financial statements have been prepared under the historical cost convention except for investment properties and derivative financial instruments which have been measured at fair value.

(c) Significant judgements and estimates

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses.

In applying accounting policies, management continually evaluates estimates, assumptions and historical judgments based on experience and other factors, including expectations about future events that may have an impact on the Group entities. All judgements, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgements, estimates and assumptions.

Notes to the consolidated financial statements

2. Basis of preparation (cont.)

(c) Significant judgements and estimates (cont.)

Significant judgements, estimates and assumptions made by management in the preparation of these financial statements are outlined below.

- Investment properties – operating leases

APDC Trust has commercial property leases and earned rent on the M1, S1 and P1 properties during the year.

The Directors have determined that APDC Trust retains all the significant risks and rewards of ownership of these properties and has thus classified the leases as operating leases (refer Note 3(g)).

- Investment properties – valuation

At each reporting date, the fair values of the investment properties are assessed by the Directors according to the accounting policy on valuing assets and applying generally accepted valuation criteria, methodology and assumptions (refer Note 3(h)).

(d) Functional and presentation currency

These financial statements are presented in Australian dollars, which is the functional currency of each of the Group entities.

3. Summary of significant accounting policies

The significant policies which have been adopted in the preparation of these consolidated financial statements for the year ended 30 June 2015 are set out below. These policies have been consistently applied, unless otherwise stated.

The Group entities have not early adopted any accounting standards.

(a) Changes in accounting policies

The Group and APDC Trust have adopted the following amendments to standards, including any consequential amendments to other standards, with a date of initial application of 1 July 2014.

- AASB 2012-3 Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial liabilities (Amendments to AASB 132);
- AASB 2013-3 Amendments to AASB 136 – Recoverable Amount Disclosures for Non-Financial Assets;
- AASB 2013-4 Amendments to Australian Accounting Standards – Novation of Derivatives and Continuation of Hedge Accounting;
- AASB 2013-5 Amendments to Australian Accounting Standards- Investment Entities;
- AASB 2014-1 Amendments to Australian Accounting Standards; and
- AASB 2013-9 Amendments to Australian Accounting Standards- Conceptual Framework, Materiality and Financial Instruments (December 2013) – Part B – (Materiality).

There was no material impact on the financial report as a result of adoption of these amendments to standards.

(b) Principles of consolidation

Stapling

The shares of APDC Holdings are stapled to units of APDC Trust. These stapled shares and units are also referred to as stapled securities and/or securities.

Stapling transactions are considered business combinations and are accounted for under AASB 3 Business Combinations using the acquisition method at the acquisition date.

AASB 3 requires one of the combining entities in a stapling transaction to be identified as the acquirer for accounting purposes. The acquirer is also the parent entity of the Group. The parent entity is required to prepare consolidated financial statements in accordance with the principles of AASB 3 and AASB 127 Consolidated and Separate Financial Statements.

Notes to the consolidated financial statements

3. Summary of significant accounting policies (cont.)

(b) Principles of consolidation (cont.)

Where a business combination occurs through contract alone, the acquirer attributes the acquiree's net assets recognised in accordance with AASB 3 to the owners. Any equity interest held by the parties other than the acquirer is a non-controlling interest.

APDC Holdings has been identified as the acquirer and the parent for the purposes of preparing the consolidated financial statements of the Group. Therefore APDC Limited and APDC Trust are included in the consolidated financial statements of APDC Holdings.

APDC Holdings does not own any units in the APDC Trust and there was no consideration paid.

Non-controlling interests in the financial statements of the Group represent the equity attributable to unitholders of APDC Trust. Non-controlling interest is defined as that portion of the profit or loss and net assets of APDC Trust and its subsidiaries which are not owned by APDC Holdings (parent) directly or indirectly through subsidiaries. On the basis that APDC Holdings has no ownership interest in APDC Trust, the net assets of the APDC Trust are identified as non-controlling interests and presented in the Group's Statement of Financial Position within equity separately from the APDC Holding's shareholders equity.

The \$1.00 issue price per stapled security is allocated as \$0.99 to each APDC Trust unit and \$0.01 to each APDC Holdings share. The profit or loss of APDC Trust is separately disclosed as non-controlling interest in the profit or loss of the Group.

Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary and any related non-controlling interest and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Intra-group balances and transactions and any unrealised income and expenses arising from intra-group transactions are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

(c) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

The Group and APDC Trust recognise revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the activities as described below.

Revenue is recognised for each of the business activities as follows:

Rental income

Rental income is recognised on a straight-line basis over the lease term.

Rent on unimproved land derived from land or an investment property under construction or development, which directly relates to bringing an asset to the location and working condition of an investment property, is recognised as a reduction in the purchase price of the asset.

Interest income

Interest income is recognised using the effective interest method.

Notes to the consolidated financial statements

3. Summary of significant accounting policies (cont.)

(d) Expenses

All expenses are accounted for on an accruals basis.

Expenses which are incidental to the acquisition of an investment property are included within the cost of that property.

(e) Taxation

[APDC Holdings and APDC Limited](#)

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the balance date, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is provided on all temporary differences at balance date on the difference between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available, against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply when the asset is realised through the continued use or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantially enacted at the balance date.

[APDC Trust](#)

Under current Australian tax legislation, the APDC Trust is not liable for income tax, provided that the taxable income (including any assessable component of any capital gains from the sale of investment assets) is fully distributed to unitholders each year.

Distributions in excess of the taxable income of the APDC Trust are treated as tax deferred distributions.

The tax deferred component reduces a securityholder's capital gains tax base applicable to the units held in APDC Trust.

(f) Goods and Services Tax

The Group entities are part of a Goods and Services Tax (GST) consolidated group.

Revenues, expenses and assets are recognised net of the amount of GST except where the GST is incurred on a purchase of goods and services and is not recoverable from the taxation authority. In these circumstances the GST is recognised as part of the cost of the acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from or payable to the taxation authority is included as part of receivables or payables in the statement of financial position.

Notes to the consolidated financial statements

3. Summary of significant accounting policies (cont.)

(f) Goods and Services Tax (cont.)

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, is classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(g) Operating leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Properties leased under operating leases are classified as investment properties. The Directors have determined that APDC Trust retains all the significant risks and rewards of ownership of its investment properties and has thus classified the leases as operating leases.

(h) Investment properties

Investment properties comprising freehold land and buildings (including certain plant and equipment) are held for long term rental yields and capital appreciation and are not occupied by the Group or APDC Trust.

The acquisition of land and buildings is accounted for as an asset acquisition. Investment properties are initially recognised at cost including any acquisition costs.

Fair value

Investment properties are carried at fair value at each reporting date with any gain or loss arising from a change in fair value recognised as profit or loss in the year. Land and buildings (including certain plant and equipment) that comprise investment property are not depreciated.

The fair value of investment properties is assessed by the Directors, in accordance with AASB 13 *Fair Value Measurement*, using a valuation technique to estimate the price at which an orderly transaction to sell the asset would take place between market participants under current market conditions.

At each reporting date, the fair value of the investment properties is assessed by the Directors by reference to independent valuation reports or through other appropriate valuation techniques.

The potential effect of capital gains tax (CGT) on disposal has not been taken into account in the determination of the revalued carrying amount as it is expected that all realised gains on the sale of assets will be distributed to securityholders.

Subsequent costs

APDC Trust recognises in the carrying amount of an investment property the cost of replacing part of that investment property when that cost is incurred if it is probable that the future economic benefits embodied within the item will flow to the consolidated entity and the cost can be measured reliably. All other costs are recognised in the profit or loss as an expense as incurred.

(i) Acquisition of assets

The purchase method of accounting is used for all acquisitions of assets regardless of whether equity instruments or other assets are acquired.

Cost is measured at the fair value of the assets given up.

Securities issued or liabilities assumed at the date of acquisition plus incidental costs are directly attributable to the acquisition. Transaction costs arising on the issue of equity instruments are recognised directly in equity.

(j) Cash and cash equivalents

For the purpose of presentation in the Statements of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts, if applicable, are shown within borrowings in current liabilities in the Statements of Financial Position.

3. Summary of significant accounting policies (cont.)

(k) Trade and other receivables

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. They are presented as current assets unless collection is not expected for more than 12 months after the reporting date.

The effective interest rate is a method of calculating the amortised cost of a financial asset or a financial liability and of collating the interest income or interest expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, cash flow estimates consider all contractual terms of the financial instruments.

Short term receivables are not discounted where the effect is not material.

Impairment

An assessment is made at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

(l) Non-derivative financial liabilities

Non-derivative financial liabilities comprise interest bearing loans and trade and other payables. The Group entities classify non-derivative financial liabilities into the other liabilities category.

Such liabilities are recognised initially at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest rate method.

Short term non-derivative financial liabilities are not discounted where the effect is not material.

(m) Derivative financial instruments and hedge accounting

The Group holds derivative financial instruments to hedge its interest rate risk exposure.

Derivatives (including interest rate swaps) are recognised initially at fair value. Any directly attributable transaction costs are recognised in profit or loss as they are incurred. Subsequent to initial recognition, derivatives are remeasured to their fair value at each reporting date.

The Group documents at the inception of the hedging transaction the relationship between the hedging instrument and hedged item, as well as its risk management objective and strategy for undertaking the hedge transaction. The Group also documents its assessment, both at hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been and will continue to be highly effective in offsetting changes in fair values or cash flows of hedged items.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognised in other comprehensive income and accumulated in the cash flow hedge reserve. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss.

The amount accumulated in equity is retained in other comprehensive income and reclassified to profit or loss in the same period or periods during which the hedge item affects profit or loss.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively.

If the hedging instrument is held to maturity, no profit or loss would result on expiry.

Notes to the consolidated financial statements

3. Summary of significant accounting policies (cont.)

(n) Provisions

Provisions are recognised when the Group entities have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the balance date.

(o) Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months after the end of each reporting period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave is recognised in provisions.

Other long term employee benefit obligations

The liability for long service leave and annual leave which is not expected to be settled within 12 months after the end of the reporting period in which the employees render the related service is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to the expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Retirement benefit obligations

Except for the statutory superannuation guarantee charge, the Group does not have any other retirement benefit obligations.

(p) Contributed equity

APDC Holdings

Ordinary shares are classified as equity.

APDC Trust

Under its Constitution, APDC Trust has been established as an indefinite life trust and the distributions are at the discretion of the Directors of the responsible entity. Accordingly, the units issued are classified as equity.

Costs of issue of new stapled securities

Costs directly attributable to the issue of new stapled securities are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new stapled securities or options for the acquisition of a new business are not included in the cost of acquisition as part of the purchase consideration.

(q) Dividends/distributions

APDC Holdings

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

APDC Trust

Each reporting period the Directors of the responsible entity are required to determine the distribution entitlement of the unitholders of the Trust in respect of the period. Any amounts so determined but not paid by the end of the period, are recorded as a liability.

Notes to the consolidated financial statements

3. Summary of significant accounting policies (cont.)

(r) Earnings per security

Basic earnings per security

Basic earnings per security is determined by dividing profit attributable to securityholders by the weighted average number of ordinary securities on issue during the period.

Diluted earnings per security

Diluted earnings per security is determined by dividing profit attributable to securityholders by the weighted average number of ordinary securities and dilutive potential ordinary securities on issue during the period.

Profit attributable to APDC Trust

The issued units of APDC Trust are presented as a non-controlling interest, and therefore the profit attributable to APDC Trust is excluded from the calculation of basic and diluted earnings per security presented in the consolidated statement of profit or loss and other comprehensive income.

4. Segment information

The Group entities present operating segments based on the internal information that is available to the Chief Executive Officer (CEO), who is the Group's chief operating decision maker.

The Group entities operate wholly within Australia and derive rental income from investments in commercial property and 100 per cent of this income is derived from one tenant and as such this is considered to be the only segment in which the Group and APDC Trust are engaged.

The operating results are regularly reviewed by the CEO to make decisions about resources to be allocated and to assess performance. There are no reconciling items that exist between the discrete financial information reviewed by the CEO and the financial statements relating to revenue, profit or loss, assets and liabilities or other material items.

5. New accounting standards and interpretations

A number of new standards, amendments to standards and interpretations are effective for future annual reporting periods, and have not been applied in preparing these consolidated financial statements. Those which may be relevant to the Group entities are set out below. The Group entities do not plan to adopt these standards early.

(a) AASB 9 Financial Instruments (December 2010) (includes financial assets and financial liability requirements) (effective 1 January 2018, previously 1 January 2017).

In AASB 9 (December 2010), the AASB added requirements for the classification and measurement of financial liabilities that are generally consistent with the equivalent requirements in AASB 139 except in respect of the fair value option and certain derivatives linked to unquoted equity instruments. The AASB also added the requirements in AASB 139 in relation to the derecognition of financial assets and liabilities to AASB 9.

AASB 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets amortised cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The guidance in AASB 139 on impairment of financial assets and on hedge accounting continues to apply.

The Group entities do not expect the new standard to have a significant effect on existing financial assets and financial liabilities.

(b) AASB 15 Revenue from Contracts with Customers (effective 1 January 2018)

AASB 15 Revenue from Contracts with Customers establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. The standard is not applicable until 1 January 2018 but is available for early adoption. The Group is yet to perform a detailed analysis of the new guidance.

7. Responsible entity management fees

APDC Limited, the responsible entity of APDC Trust, is entitled to a management fee calculated as up to 2% per annum of the gross asset value of APDC Trust. It is payable from the income (or other assets) of APDC Trust, as and when incurred.

As long as there is an internal management structure, wherein APDC Limited provides responsible entity services to APDC Trust and APDC Trust is stapled to APDC Holdings, APDC Limited will charge APDC Trust on a cost recovery basis for the direct APDC Trust expenses and for the operating expenses of APDC Holdings and APDC Limited.

Management fees of \$753,000 were expensed by APDC Trust during the year (2014: \$747,000). At 30 June 2015, management fees of \$59,000 were payable to APDC Limited (2014: \$59,000).

8. Remuneration of auditor

APDC Trust

Under current Australian tax legislation, APDC Trust is not liable for income tax, provided that the taxable income (including any assessable component of any capital gains from the sale of investment assets) is fully distributed to unitholders each year.

Distributions in excess of the taxable income of APDC Trust are treated as tax deferred distributions.

The tax deferred component reduces a securityholder's capital gains tax base applicable to the units held in APDC Trust.

12. Trade and other receivables

At 30 June 2015, APDC Trust has an intercompany receivable of \$500,000 (2014: \$500,000) representing an advance for working capital to APDC Limited. The loan is repayable on demand and interest free.

Notes to the consolidated financial statements

13. Investment properties

APDC Trust has three investment properties, Melbourne (M1), Sydney (S1) and Perth (P1). The Trust has lease agreements over the properties with NEXTDC on a triple net basis for initial terms of 15 years expiring 2027 and 2028 with options for up to another 25 years. NEXTDC has made rental payments for M1, S1 and P1 in accordance with the lease agreements.

Rental payments for P1 commenced on 30 November 2013 following practical completion of the base building. Rent on unimproved land received during the prior year for P1 whilst it was under construction was recognised as a reduction in the purchase price of the asset, and not as rental income. Refer Note 3(c).

(a) Basis of valuation

The carrying amount of investment property is the fair value of the property as assessed by the Directors (refer Note 3(h)).

The Directors assess fair value based on the most recent independent valuation updated to take into account any changes in estimated rental income, property capitalisation rates or estimated yields with reference to market evidence of transaction prices for similar properties.

Independent valuations when obtained, are performed by an independent valuer with a recognised professional qualification and recent experience in the location and category of property being valued. The independent valuations utilise the following methodologies: active market prices, capitalisation of net income and discounted cash flow:

- i. The active market prices method assesses a property's value based on the sale price of comparable properties that have recently traded in commercial, arms length transactions.
- ii. The capitalisation of net income method capitalises the current rent received, at a rate analysed from the most recent transactions of comparable property investments, adjusted to take into consideration a number of factors including:
 - lease term remaining;
 - the relationship of current rent to the market rent;
 - the location;
 - prevailing investment market conditions; and
 - other property specific conditions.
- iii. The discounted cash flow method calculates a property's value by using projections of future cash flows and terminal value derived from the term of any existing leases, and from external evidence such as current market rents for similar properties in the same area and condition, and using discount rates that reflect the current market assessments of the uncertainty in the amount and timing of cash flows specific to the asset.

Independent valuations for each investment property will take place at a minimum of once every three years or earlier should the Directors consider it appropriate.

(b) Measurement of fair value

Fair value hierarchy

AASB 13 *Fair Value Measurement* (AASB 13) requires the disclosure of fair values for each of the following measurement categories:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

The fair value measurement of investment properties of \$166,300,000 has been categorised as Level 3.

During the year, there were no transfers between Level 1, Level 2 and Level 3 fair value categories.

13. Investment properties (cont.)

(b) Measurement of fair value (cont.)

Significant unobservable inputs

Refer to the table in Note 13(c) for significant unobservable inputs and the valuation method used for each investment property.

The table includes the following descriptions and definitions relating to valuation techniques and significant unobservable inputs made in determining the fair values:

Annual net property income (m ² per annum)	The annual rent per square metre at which space could be let in the market conditions prevailing at the date of valuation.
Capitalisation rate	The rate at which net property income is capitalised to determine the value of a property. The rate is determined with regard to market evidence.
Discount rate	The rate used to discount the net cash flows generated from rental and investment activities during the period of analysis (estimated for up to 10 years).
Lease expiry	The date at which the lease finishes (excluding options).

Sensitivity to changes in significant unobservable inputs

The relationship between the significant unobservable inputs and fair value is as follows:

- Annual net property income: the higher the income the higher the likelihood of a higher valuation
- Capitalisation rate: the lower the capitalisation rate the higher the likelihood of a higher valuation
- Discount rate: the lower the discount rate the higher the likelihood of a higher valuation
- Lease expiry: the longer the lease term the higher the likelihood of a higher valuation

(c) Fair value of investment properties

Property	Acquisition date	Cost \$'000	Previous	Fair value 2014 \$'000	Fair value	Fair value 2015 \$'000
			fair value adjustments \$'000		adjustments 2015 \$'000	
M1, Melbourne	21/12/2012	52,005	4,195	56,200	6,600	62,800
S1, Sydney	21/12/2012	57,548	6,952	64,500	5,500	70,000

Total		138,023	12,677	150,700	15,600	166,300

The investment properties are carried at fair value of the property as assessed by the Directors by reference to the most recent independent valuation for that property (as listed in the table below) updated to take into account any changes in valuation factors (refer Note 13(a) Basis of Valuation).

APDC Trust has a five year facility with Bankwest (a division of Commonwealth Bank of Australia) (Bankwest) to provide the Group with up to \$29 million of asset secured debt funding (Debt Facility). The Debt Facility matures on 28 November 2018. The Debt Facility comprises a cash advance facility with a maximum limit of \$25 million and a multi option facility with a maximum limit of \$4 million. At 30 June 2015, there were no drawdowns against the multi option facility.

The Debt Facility is a variable rate loan with interest charged at 2.15% above the Bank Bill Swap Rate for the year. The Debt Facility is provided for a five year term and is secured by a mortgage over S1 Sydney data centre asset.

Subsequent to year end, APDC Trust has renegotiated the interest rate margin on the Core Debt facility resulting in a reduction in margin from 2.15% per annum to 1.50% per annum.

15. Financial instruments

(a) Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, interest risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focusses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. In this note, references to the Group include APDC Trust.

[Risk management framework](#)

The Directors have overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established the Audit, Risk and Compliance Committee (the Committee), which is responsible for developing and monitoring the Group's risk management policies. The Committee reports regularly to the Board on its activities.

The Group's risk management framework is designed to ensure that it has explicitly identified the risks it faces and has measures in place to keep those risks to an acceptable minimum.

(a) Financial risk management (cont.)

Risks are managed through the effective implementation of various measures and controls which include:

- Board approved compliance arrangements and the risk management framework;
- documented policies, procedures, compliance registers and checklists;
- ongoing monitoring of regulatory obligations;
- ongoing supervision of management personnel and service providers; and
- internal and external reporting.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risk: foreign exchange risk, price risk and interest rate risk.

Foreign exchange risk

The Group currently only operates in Australia and its transactions are in Australian dollars. Consequently, the Group has no exposure to foreign exchange risk.

Price risk

The Group is not exposed to equity securities price risk.

Interest rate risk

The Group is exposed to interest rate risk predominantly through interest bearing loans. Loans issued at variable rates expose the Group to cash flow interest-rate risk. Borrowings issued at fixed rates expose the Group to fair value interest-rate risk.

As detailed in Note 14, the Bankwest Debt Facility is a variable rate loan, with interest charged at 2.15% above the Bank Bill Swap Rate. Therefore, the Group is mainly exposed to cash flow interest rate risk.

The Group uses derivative financial instruments such as interest rate swaps to manage its interest rate risk. Refer to Note 15(b).

The weighted average interest rate on all cash assets at 30 June 2015 was 1.7% per annum.

At 30 June 2015, if interest rates increased by 100 or decreased by 100 basis points from the year end rates with all other variables held constant, profit for the year would have been \$320,000 higher/\$320,000 lower, mainly as a result of higher/lower interest income from deposits and interest expense on borrowings.

15. Financial instruments (cont.)

(a) Financial risk management (cont.)

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Credit risk arises from cash and cash equivalents, outstanding receivables and committed transactions. The Group's exposure to credit risk is influenced mainly by the individual characteristics of its tenant. The Group has one tenant (NEXTDC) and therefore there is significant concentration of credit risk with the Group. The Group does not have the benefit of a bank guarantee from NEXTDC. Therefore, the credit worthiness of the tenant is monitored and assessed by the Board, taking into account their financial position and operating results.

During the year, all cash assets were placed with Commonwealth Bank of Australia and Bankwest in interest bearing bank accounts.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to maintain sufficient cash balances and adequate committed credit facilities.

The Group manages its liquidity risk by using detailed forward cash flow planning and by maintaining relationships with banks and investors in the capital markets.

APDC Trust's Debt Facility includes a multi option facility with a maximum limit of \$4 million that can be used for working capital purposes.

The following table provides the contractual maturity of the Group's financial liabilities.

[Capital management](#)

The Group's capital management policy seeks to maximise securityholder value through optimising the level and use of capital resources and the mix of debt and equity funding.

The Group's capital management objectives are to:

- ensure compliance with capital and distribution requirements of the Constitutions and/or trust deeds;
- ensure sufficient capital resources to support the Group's operational requirements;
- continue to support the Group's creditworthiness;
- comply with capital requirements of relevant regulatory authorities; and
- safeguard the Group's ability to continue as a going concern.

The Group monitors the adequacy of its capital requirements, cost of capital and gearing as part of its overall strategic plan.

The Debt Facility requires that APDC Trust must comply with the following financial covenants:

- Loan to valuation ratio (LVR) - maintain an LVR not exceeding 50% at all times. LVR is calculated as the Debt Facility outstanding amount divided by the value of the security property (being the S1 data centre). The LVR at 30 June 2015 is 36%.
- Interest coverage ratio (ICR) – maintain an ICR of 2.0 times in respect of each period (financial year) at the end of which ICR is measured. The ICR at 30 June 2015 is 3.8 times.

Notes to the consolidated financial statements

15. Financial instruments (cont.)

(a) Financial risk management (cont.)

The Group's capital structure is continuously reviewed to ensure:

- sufficient funds and financing facilities are available, on a cost effective basis, to implement the Group's strategies; and
- distributions to securityholders are made within the stated policy.

The Group is able to alter its capital mix by:

- issuing new stapled securities;
- activating the distribution reinvestment plan;
- adjusting the amount of distributions paid to securityholders;
- selling assets to reduce borrowings; or
- increasing debt facilities.

Investment properties are insured by the tenant (NEXTDC) with APDC Trust noted as beneficiary.

There are specific capital requirements for APDC Limited, as the responsible entity for APDC Trust and the holder of an Australian Financial Services Licence (AFSL). APDC Holdings has provided a subordinated commercial loan of \$590,000 to APDC Limited, to ensure APDC Limited retains sufficient net tangible assets for the AFSL requirements. Management monitors APDC Limited's net tangible assets on an ongoing basis to ensure it continues to meet its licence requirements.

(b) Derivative financial instruments

The Group uses derivative financial instruments such as interest rate swaps to manage its financial risk as permitted under the Group's risk management policy. Such instruments are used exclusively for hedging purposes and not for trading or speculative purposes.

APDC Trust has an interest rate swap agreement to fix the floating interest rate component for \$12.5 million of its Debt Facility (50% of the drawn Core Debt amount) for five years.

The interest rate swap agreement entitles APDC Trust to receive interest at quarterly intervals at a floating rate on a notional principal amount and obliges it to pay interest at a fixed rate. The interest rate swap agreement allows APDC Trust to raise long term borrowings at a floating rate and effectively swap them into a fixed rate.

The interest rate swap is designated as a cash flow hedging instrument. Accordingly, the effective portion of changes in the fair value of the interest rate swap is recognised in other comprehensive income and accumulated in the cash flow hedge reserve. Any ineffective portion of changes in the fair value of the derivative is recognised immediately in profit or loss. Refer to Note 3(m).

The fair value of the interest rate swap liability at 30 June 2015 was \$624,000 (30 June 2014: \$393,000).

(c) Carrying amounts versus fair values

At 30 June 2015, the carrying amounts of the Group's financial assets and liabilities approximate their fair values.

15. Financial instruments (cont.)

(d) Fair value hierarchy

The table below analyses recurring fair value measurements for financial assets and financial liabilities. These fair value measurements are categorised into different levels in the fair value hierarchy based on the inputs to valuation techniques used. The different levels are defined in Note 13(b).

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Derivative liabilities				
30 June 2015:				
Interest rate swap used for hedging	-	624	-	624
Total financial liabilities carried at fair value	-	624	-	624
30 June 2014:				
Interest rate swap used for hedging	-	393	-	393
Total financial liabilities carried at fair value	-	393	-	393

The interest rate swap is measured at fair value based on the mark to market value quoted for forward interest rate swaps. These quotes are tested for reasonableness by discounting expected future cash flows using market interest rates for a similar instrument at the measurement date.

The fixed rate on the interest rate swap is 3.94% per annum.

Stapled securities

Each stapled security comprises one share in APDC Holdings and one unit in APDC Trust. They cannot be traded or dealt with separately. Stapled securities entitle the holder to participate in distributions and the proceeds on winding up of the Group entities in proportion to the number of securities held. On a show of hands every holder of stapled securities present at a meeting in person or by proxy, is entitled to one vote. On a poll, each ordinary shareholder is entitled to one vote for each fully paid share and each unit holder is entitled to one vote for each fully paid unit.

(b) Nature and purposes of reserves

[Asset revaluation reserve](#)

Investment properties are carried at fair value at each reporting date with any gain or loss arising from a change in fair value recognised in profit or loss in the year. At the end of each reporting period, any unrealised gain or loss arising from a change in the fair value of investment properties is transferred from retained earnings to the asset revaluation reserve. The asset revaluation reserve comprises the unrealised gains or losses arising from changes in the fair value of investment properties (excluding rent on unimproved land for properties under construction).

[Cash flow hedge reserve](#)

The cash flow hedge reserve is used to record the effective portion of changes in the fair value derivatives that are designated as cash flow hedges. Refer to Note 3(m).

21. Significant party disclosures

Transactions with NEXTDC Limited

[Lease agreements](#)

APDC Trust has lease agreements with NEXTDC for M1, S1 and P1. The leases are on a triple net basis and for a 15 year initial term with options for up to another 25 years. The leases provide for upwards only annual CPI rental increases and market reviews every 5 years, not exceeding 110% of the preceding year's rent. The rental income for M1, S1 and P1 totalled \$12,966,000 for the year (2014: \$11,794,000).

In the event that the Group wishes to sell M1, S1 and P1, NEXTDC has the first right to acquire these properties.

[Alliance with NEXTDC](#)

The Group has an alliance with NEXTDC which expires on 21 December 2015. During the alliance period, NEXTDC grants to the Group, for no consideration, the first right to develop or own a data centre on market terms if NEXTDC wishes to sell those rights. The Group grants to NEXTDC: first right of refusal to lease (lease rights) and/or, operate, develop, finance or manage (operation rights) on market terms any data centres that the Group acquires, develops or establishes; the right to consent to the acquisition by the Group of any data centre where the lease rights or operations rights cannot be offered to NEXTDC; the right to consent to the sale of assets to a NEXTDC competitor and the right to consent to the acquisition or development of any land or data centre. The rights under the alliance period apply to any data centre or land in Australia or Asia Pacific region.

The following transactions occurred in the prior year:

[Development agreements](#)

On 29 November 2013, APDC Trust paid \$22,969,000 of the \$23,800,000 development fee for P1 to NEXTDC, following practical completion of the base building. The remaining \$831,000 was paid to NEXTDC in February and March 2014.

On 23 August 2013, APDC Trust paid \$325,000 of the \$425,000 final payment to NEXTDC for S1. The remaining \$100,000 was paid to NEXTDC in February and March 2014.

[Loan facility](#)

On 3 December 2013, APDC Holdings repaid a loan facility of \$750,000 and on 20 December 2013 paid interest of \$37,000 to NEXTDC. This loan amount was used by the Group to satisfy the minimum capitalisation requirements of APDC Limited's Australian Financial Services Licence.

Independent auditor's report to the stapled security holders of Asia Pacific Data Centre Holdings Limited and Asia Pacific Data Centre Trust

Report on the financial report

We have audited the accompanying financial reports which comprise:

- the consolidated statement of financial position as at 30 June 2015, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, notes 1 to 25 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of Asia Pacific Data Centre Holdings Limited which comprises Asia Pacific Data Centre Holdings Limited (the Company) and the entities it controlled at the period end and from time to time during the financial period which form the consolidated entity (the Group).
- the statement of financial position as at 30 June 2015, statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the period ended on that date, notes 1 to 25 comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of Asia Pacific Data Centre Trust (the Trust).

Directors' responsibility for the financial report

The directors of Asia Pacific Data Centre Holdings Limited and the directors of Asia Pacific Data Centre Limited, the Responsible Entity of Asia Pacific Data Centre Trust (collectively referred to as "the directors") are responsible for the preparation of the financial reports that give a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial reports that are free from material misstatement whether due to fraud or error. In Note 2(a), the directors also state, in accordance with Australian Accounting Standard AASB 101 Presentation of Financial Statements, that the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial reports based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We performed the procedures to assess whether in all material respects the financial reports presents fairly, in accordance with the *Corporations Act 2001* and Australian Accounting Standards, a true and fair view which is consistent with our understanding of the financial position and performance of the Group and Asia Pacific Data Centre Trust.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial reports of the Group and Asia Pacific Data Centre Trust are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's and the Trust's financial position as at 30 June 2015 and of their performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.
- (b) the financial reports also comply with International Financial Reporting Standards as disclosed in note 2(a).

Report on the remuneration report

We have audited the Remuneration Report included in section 6 of the directors' report for the year ended 30 June 2015. The directors are responsible for the preparation and presentation of the remuneration report in accordance with Section 300A of the *Corporations Act 2001*.
